Faculty of Business and Law
School of Business

UNIVERSITY OF WOLLONGONG AUSTRALIA

ACCY122: Accounting Principles

Subject Outline

6 credit points

Subject Information

Spring, 2026

Singapore at SIM GE

Online Subject Material

Subjects with a delivery mode of On Campus and/or Flexible with International Student enrolments will be delivered in accordance with the ESOS National Code. That is, online learning experiences (such as lectures, tuition, and resources) will be supplementary to in-person learning experiences such as scheduled classes and/or scheduled contact hours.

UOW may need to change teaching locations/venues and/or teaching delivery at short notice to ensure the safety and wellbeing of students and staff in response to the COVID-19 pandemic or other public health requirements.

For up-to-date information on the impact of COVID-19 please refer to your subjects Moodle site.

Faculty Vision, Mission and PRME

Our mission is to inspire and develop globally-minded and socially responsible community members and leaders, through high-quality teaching, impactful research and meaningful engagement with community, government, industry and academic partners. The full Vision and Mission statements can be found at https://www.uow.edu.au/business-law/schools-entities/business/about-us/vision-and-mission/

We are a signatory to the Principles of Responsible Management Education (PRME) and supports the realisation of the United Nations Sustainable Development Goals. More information on PRME can be found at https://www.uow.edu.au/business-law/about/

Teaching Staff

Teaching Role	Lecturer and Tutor
Name	Manek Mukesh
Email	manek@uow.edu.au; manek002@mymail.sim.edu.sg; (copy to) onlymanek@gmail.com

Expectations of Students

UOW values are intellectual openness, excellence and dedication, empowerment and academic freedom, mutual respect and diversity, recognition and performance. We will provide a safe, equitable and orderly environment for the University community, and expect each member of our community to behave responsibly and ethically (UOW Student Conduct Rules https://documents.uow.edu.au/about/policy/learning/index.html).

We expect that students demonstrate these values and professional behaviour, both face to face and online, making genuine efforts to complete their studies successfully, arriving on time to class, taking part constructively in class discussions and activities, demonstrating appropriate professional and ethical conduct in all communication with UOW staff and community members, and submitting assignments on time (or completing a request for Academic Consideration in advance if needed).

Communication and eLearning Etiquette

Guidelines on the use of email to contact teaching staff, mobile phone use in class and information on the university guide to eLearning 'Netiquette' can be found at https://www.uow.edu.au/student/learningcoop/software/emailetiquette/index.html

Cyber Bullying

The University is committed to providing a safe, respectful, equitable and orderly environment for the University community, and expects each member of that community to behave responsibly and ethically. Students must comply with the University's Student Conduct Rules and related policies including the IT Acceptable Use Policy and Bullying Prevention Policy, whether undertaking their studies face-to-face, online.

For more information on appropriate communication and etiquette in the online environment please refer to the guide Online and Email Etiquette or at https://www.uow.edu.au/student/learning-co-op/technology-and-software/email-etiquette/.

Section A: General Information

Learning Outcomes

Student Learning Outcomes

On successful completion of this subject, students will be able to:

1. Explain the nature, role and importance of ethics to the accounting profession.
2. Explore and describe the foundational principles that inform accounting practice.
3. Demonstrate technical competence in applying the principles of double-entry accounting and preparing financial statements.
4. Demonstrate the appropriate skills needed to use accounting software to record business transactions, process accounting information and prepare financial statements.

Subject Description

This subject introduces students to the principles of a double-entry accounting system to identify, classify, process, record and present accounting information. Students use accounting software to record business transactions, process accounting information and prepare financial statements. The subject introduces the role of ethics and professional judgement, in the context of an evolving business environment.

Course Learning Outcomes

Course Learning Outcomes can be found in the Course Handbook
https://www.uow.edu.au/handbook/index.html.

eLearning, Readings, References and Materials

The University uses the eLearning system Moodle to support all coursework subjects. The subject Moodle site can be accessed via SOLS.

You can find guidelines to eLearning here http://www.uow.edu.au/student/elearning/guide/index.html

Embedded Work Integrated Learning

This subject contains elements of 'Embedded WIL'. Students in this subject will experience activities that relate to or simulate professional practice as part of their learning.

Major Text(s)

Hoggett, J, Medlin, J, Chalmers, K, Beattie, C, Hellmann, A & Maxfield, J 2023, *Financial Accounting*, 12th Edition, John Wiley and Sons, Australia.

1. Wiley Business Now – Semester Plan: A$24.95
2. Interactive E-Text – Lifetime Access: A$75
3. Printed Textbook + Interactive eText Code: A$129.95

Students can access the above options through WileyDirect.
Students can purchase a hard copy of the textbook
Textbook details are available online from the University Bookshop at https://unishop.uow.edu.au/

Key References

During the session, additional readings and material will be available on the ACCY122 Moodle site.

Recommended Background and Further Reading

Additional materials will be placed on the ACCY122 Moodle site in their relevant week.
Students are encouraged to engage with the financial news and press throughout this subject, to see the influence of accounting concepts in everyday business decisions.

This is not an exhaustive list of references. Students should also use the library catalogue and databases to locate additional resources.

Additional Materials

Students are required to have a UOW approved calculator for use in exams for this subject.

Lectures, Tutorials and Attendance Requirements

Lecture Times *

UOW may need to change teaching locations, teaching delivery and/or assessment delivery at short notice to ensure the safety and well-being of students and staff in response to the COVID-19 pandemic or other public health requirements.

For up-to-date information on the impact of COVID-19 please refer to your subjects Moodle site.

Up to date timetable and delivery information is located at SIM platform.

For current timetable information please refer to the online Subject Timetables on the Current Students webpage.

#	Date	Topics Covered	Readings
L1	Mar 30	**Introduction to ACCY122** • subject outline • the nature of accounting • accounting terms • introduction to financial statements • analyse transactions • accounting equation • Professional Code of Ethics in Accounting • Ethical behaviour	**Chapter 1 and Chapter 2** All chapters refer to the ACCY122 prescribed textbook: Hoggett et al. (2024)
L2	April 6	**Recording transactions** • record transactions • the accounting cycle • account formats • double entry accounting • general journal	**Chapter 3**
L3	April 15	**Adjusting the accounts and preparing financial statements** • classification of adjusting entries • adjusting entries for deferrals • adjusting entries for accruals • adjusted trial balance • recording adjusting entries from a worksheet • distinguishing current and non-current assets and liabilities • preparing financial statements from 10-column worksheet	**Chapter 4**
L4	April 20	**Completing the accounting cycle** • all the steps in the complete accounting cycle • permanent and temporary accounts • the closing process • enter closing entries in accounting records • post-closing trial balance	**Chapter 5**
L5	April 21	**Accounting for retailing** • inventory and retailing operations • income statement for retail businesses • perpetual inventory system • periodic inventory system • determining the cost of inventory on hand • accounting for purchases and cost of sales • inventory pricing methods	**Chapter 6 & Chapter 13**

L6	April 28	**Xero accounting software** **Accounting systems** • sales journal • purchases journal • cash receipts journal • cash payments journal • use of the general journal when special journals are used	**Ch Workbook - North Gong Surf School. Available on Moodle.** **Chapter 7 pp. 255-276**
L6	April 28	Online Quiz in 2nd half of session	
L7	April 29	**Cash management and control** • internal control • cash defined as it is used in accounting • control of cash receipts and cash payments • bank account and bank reconciliation statement • the petty cash fund	**Chapter 7 pp. 247-254 & Chapter 11**
L8	May 2	**Receivables** • different types of receivables • accounts receivable • accounting for bad or doubtful debts • percentage of net sales • ageing of accounts receivable • direct write off method • allowance method • credit card transactions	**Chapter 12**
L9	May 6	**Non-current assets: acquisition and depreciation** • property plant and equipment • determining costs of property plant and equipment • depreciation methods	**Chapter 14 pp.498-509**
L10	May TBA	**Review**	**Moodle material.**
	TBA	**Examinations**	

TBA = To Be Announced.

* The above times and program may be subject to change. Students will be notified of any change via SIM.

Lecture Recording

Most lectures in this subject will be recorded, when they are scheduled in venues that are equipped with lecture recording technology, and made available via the subject Moodle site within 48 hours. Tutorials will not be recorded.

The University of Wollongong supports the recording of UOW educational content only as a supplemental study tool, to provide students with equity of access, and as a technology-enriched learning strategy to enhance the student experience. However You are prohibited from personal recording of the classroom lectures or tutorial proceedings. You are prohibited from retaining, circulating or publishing any such recordings.

You may only use educational content recorded through the delivery of subject or course content for your own educational purposes. Recordings cannot be altered, shared or published on another platform, without permission of the University, and to do so may contravene the University's Copyright Policy, Privacy Policy, Intellectual Property Policy, IT Acceptable Use Policy and Student Conduct Rules. Unauthorised sharing of recordings may also involve a breach of law under the Copyright Act 1969.

Your Privacy - Lecture Recording

In accordance with the Student Privacy & Disclosure Statement, when undertaking our normal teaching and learning activities, the University may collect your personal information. This collection may occur incidentally during the recording of lectures in equipped venues (i.e. when your identity can be ascertained by your image, voice or opinion), or via the delivery of online content therefore the University further advises students that:

- Lecture (**but not tutorials**) recordings are made available to students, university staff, and affiliates, securely on the university's IT Platforms and via the subject Moodle eLearning site;
- Recordings are made available only for the purpose for which they were recorded, for example, as a supplemental study tool or to support equity and access to educational resources;
- Recordings are stored securely for up to four years.
- You are prohibited from personal recording of the classroom lectures or tutorial proceedings.
- You are prohibited from retaining, circulating or publishing any such recordings.

If you have any concerns about the use or accuracy of your personal information collected in a lecture recording, you may approach your Subject Coordinator to discuss your particular circumstances.

The University is committed to ensuring your privacy is protected. If you have a concern about how your personal information is being used or managed please refer to the University's Privacy Policy or consult our Privacy webpage https://www.uow.edu.au/privacy/

Tutorial/Seminar/Workshop Times

The Faculty of Business and Law uses the SMP Online Tutorial System and tutorial times and locations can be found at https://www.uow.edu.au/student/timetables/index.html. Please note that tutorial times on the timetable are provisional and may change.

Tutorial/Seminar/Workshop Program

Where restrictions require temporary adjustments for delivery and tutorial/seminar/workshop arrangements, any necessary changes will be advised and provided by your Subject Coordinator. Please check the subject Moodle site regularly.

TUTORIAL for group 01, 02 and 03- Information as per the SIM communication channel.
You MUST attend tutorials in your designated group. Attendance in the wrong group will not be recognised.

Readings and Activities
The questions not discussed in the session are to be studied as homework.

Weekly tutorial questions are set to develop practical applications of topics introduced in the previous week's lecture. The questions will be taken from your prescribed text, *Financial Accounting 12th Edition, Hogget et al. (2023)* and where indicated supplementary questions are placed on the ACCY122 Moodle.
Students should prepare tutorial questions set for the first hour prior to attending class and bring their written worked solutions to tutorials. Questions and activities scheduled in the second hour are of a comprehensive nature and will be work-shopped as a class activity. Students should bring either an electronic or paper copy of the relevant templates for questions each week to class.
DQ = discussion question in the relevant *Hogget et al.* text chapter. For example, DQ 1.2 is Chapter 1, discussion question 2.
Ex = exercise question in the relevant *Hogget et al.* text chapter.
P = Problem question in the relevant *Hogget et al.* text chapter.
M = Moodle question or activity on the Moodle site for the relevant week.

T#	Topics Covered	
	There are no tutorial classes in the first week of the session.	**Readings and Activities – read as per above.**
T1	• Financial statements for decision making • The accounting equation • Analysing transactions	**Chapter 1 & Chapter 2:** : DQ 1.12, 1.13, DQ 2.10, Ex 2.4, Ex 2.11 : P 2.21, P 2.23
T2	• Recording transactions in general journal.	**Chapter 3:** : DQ 3.7, Ex 3.4, Ex 3.5, Ex 3.6 : P 3.16 part a)
T2	• Recording transactions in general journal • Posting to ledgers • Trial balance	**Chapter 3:** : Ex 3.7, Ex 3.13, P 3.16 - part b) and c): P 3.17
T3	• Adjusting the accounts • Deferrals • Accruals • Adjusted trial balance	**Chapter 4:** : DQ 4.1, DQ 4.4, Ex 4.5, Ex 4.6, Ex 4.12, Ex 4.14 : Ex 4.15, P 4.19
T3	• Completing the accounting cycle including using worksheets	**Chapter 5:** : DQ 5.3, DQ 5.4, Ex 5.2, Ex 5.3, Ex 5.5, P 5.16 : Problem 5.19
T4	• Accounting for retailing	**Chapter 6 & Chapter 13:** : DQ 6.1, DQ 6.3, DQ 6.6, DQ 6.8, Ex 6.7, Ex 6.8 : DQ 13.1, DQ 13.9, Ex 13.2, Ex 13.5 P 13.16 - part a) and b)
T4	• Accounting systems	**Chapter 7:** : DQ 7.5, DQ 7.10, Ex 7.1, Ex 7.4, Ex 7.13 : Ex 7.14, P 7.21
T5	• Cash Management and Control	**Chapter 7 & 11:** : DQ 7.2, DQ 11.1, DQ 11.5, DQ 11.7, Ex 11.3, Ex 11.7 : P 11.21, Ex 11.10
T5	• Receivables	**Chapter 12:** : DQ 12.2, DQ 12.7, DQ 12.8, Ex 12.1, Ex 12.2 : Ex 12.3, P 12.11
T5	• Non-current assets: acquisition and depreciation	**Chapter 14:** : DQ 14.4, DQ 14.6, Ex 14.1, Ex 14.2, Ex 14.4 : Ex 14.9, P 14.12
	Study Recess	
	Examinations	

The above program may be subject to change.

Additional Tutorial/Seminar/Workshop Comments

Tutorial classes are 3 hours in duration.

Attendance Requirements - Participation, Contribution and Engagement during Lectures/Tutorials/Seminars/Workshops

Students are expected to engage in all learning activities, including any online learning activities, and participate in scheduled tutorials/seminars/workshops in order to achieve the Subject Learning Outcomes.

For subjects with an assessable engagement component: Students are expected to attend all classes and need to participate regularly in order to pass the class engagement components of the assessment in this subject. Tutorials/seminars/workshops are used to promote an atmosphere in which students can learn by active engagement. Non-attendance at seminars will directly impact upon class engagement assessment mark as a mark of zero will be awarded for each class missed. **Students unable to attend a seminar due to serious or extenuating circumstances may apply for Academic Consideration see** : https://www.uow.edu.au/student/admin/academic-consideration/

Recent Improvements to Subject

The Faculty of Business and Law is committed to continual improvement in teaching and learning. In assessing teaching and learning practices in a subject, the Faculty takes into consideration student feedback from many sources. These sources include direct student feedback to tutors and lecturers, and responses to the Subject and Course Evaluation Surveys. These important student responses are used to make ongoing changes to subjects and courses. This information is also used to inform systemic comprehensive reviews of subjects and courses.

Extraordinary Changes to the Subject Outline

In extraordinary circumstances the provisions stipulated in this Subject Outline may require amendment after the Subject Outline has been distributed. All students enrolled in the subject must be notified and have the opportunity to provide feedback in relation to the amendment, where practicable, prior to the amendment being finalised.

Learning Analytics

Learning Analytics data (such as student engagement with Moodle, access to recorded lectures, University Library usage, task marks, and use of SOLS) may be used by the Subject Coordinator and your faculty's Head of Students to assist in analysing student engagement, and to identify and recommend support to students who may be at risk of failure. If you have questions about the kinds of data the University uses, how we collect it, and how we protect your privacy in the use of this data, please refer to https://www.uow.edu.au/about/privacy/index.html

Section B: Assessment

Assessment Summary

Assessment Item	Form of Assessment	%
Assessment 1	Individual - Quiz - online	30%
Assessment 2	Individual - Assignment – online	20%
Assessment 3	Individual - Exam – off line	50%
	TOTAL MARKS	100%

Please note: Copies of student work may be retained by the University in order to facilitate quality assurance of assessment processes.

A formative assessment activity (with written or verbal feedback) will be conducted before census date - please see UOW Key Dates.

Past exam papers may be available for student review, subject to release by the library (https://ereadingsprd.uow.edu.au/). Solutions and marking guides are not included. The structure and/or content of the papers may change from session to session.

Assessment 1: Individual Assessment – Online Quiz

Marking Criteria	Marks awarded for correct answers to practical questions and understanding of theoretical concepts. Incorrect or no answers will get a score of zero / nil.
Length	60 minutes.
Weighting	30%
Assessment Due	April 28 During session. Students must bring fully charged laptop with internet connection
Type of Collaboration	Individual assessment
Style and format	Online quiz of 50 randomly generated multiple-choice questions. It will be conducted via the ACCY122 Moodle site. The link to access the quiz will be available under the 'Assessment Task 1' heading. Further details will be shared by lecturer.
Assessment submission	Online via Moodle
Assessment return	Results will be posted on Moodle by the end of the day.
Detailed information	60 minutes. 50 MCQ. Topics 1 to 4 (both inclusive) Practice quizzes will be provided on the Moodle site for revision. Students to bring: Fully charged laptop with internet connection. Allowed: • Open laptop. • Restricted material (students can bring one (single) A4 size page written on both sides. • UOW approved calculator. • Free navigation. • One attempt. • Prescribed seating arrangement. Early exit upon verification of completed attempt. Disallowed: • Remote attempt. • Mobile phone. • DeepSeek, ChatGPT type generative AI. • Internet search. • Clarification with lecturer. • Pausing the quiz. • Exchange of stationery. • **GenAI is prohibited for this assessment. Use of GenAI when prohibited constitutes academic misconduct (as specified by University Policy).**

Assessment 2: Assignment - Xero Assessment

Marking Criteria	Marks will be awarded for correctly using Xero functions to complete the accounting cycle for a sole trader. A full marking guide is available on the ACCY 122 Moodle site.
Length	More information on this assessment will be made available on the Moodle site.
Weighting	20%
Assessment Due	Sunday, 10 May. 11:55pm (SGT)
Type of Collaboration	Individual assessment
Style and format	Practical using Xero software.
Assessment submission	Online via Moodle. A single pdf file per student. A zip file is not acceptable.
Assessment file name	2025 ACCY122 *Student Name UOW ID* v1. See example below. 2025 ACCY122 Manek Mukesh 1234567 v1 i) Chart of Accounts ii) Journal iii) Trial Balance iv) Profit & Loss Account v) Balance Sheet
Assessment return	Assessment 2 will be marked and made available to students no later than 17 May, 23.59 (SGT).
Detailed information	The objective of this assessment is to enhance students' practical and technical skills in using Xero software for a case.. Students must complete the Xero workbook available on the Moodle site under the 'Week 7: Xero Accounting Software' folder. In this assessment, students will be required to use Xero software to: • Register a fictional business. • Set up a chart of accounts for the business. • Record transactions using general and special journals. • Record adjusting entries in the general journal. • Record closing entries in the general journal. • Post entries to ledgers. • Generate financial statements. **GenAI is prohibited for this assessment. Use of GenAI when prohibited constitutes academic misconduct (as specified by University Policy).**

Assessment 3: Exam - Final Examination

Marking Criteria	Marked for correct technical knowledge and an understanding of theoretical concepts.
Length	3 hours
Weighting	50%
Assessment Due	To Be Announced
Type of Collaboration	Individual assessment
Style and format	The examination will consist of (mostly calculations and short-answer type) 7 to 10 compulsory questions with unequal marks adding up to 100. All content on chapter 5 onwards plus ethics will be emphasised. However the material covered in Chapter 1 to 4 may be indirectly examined (e.g. via journal entries, ledger etc.) Writing stationery (including UOW approved calculators) must be brought by the students. The stationery can not be exchanged with other student(s).
Assessment submission	The final exam date for ACCY122 will be confirmed during the session and published 2 weeks before the examination period.
Assessment return	Final exam papers will not be returned to students. See university guidelines for release of grades.
Detailed information	Please note that the final examination for this course will be conducted **in person** and **invigilated on campus**. This is a **closed-book exam** and will be **strictly invigilated** in compliance with our accreditation requirements. **No outside materials** may be used. **You will need to pass the exam to be declared successful in the module**. For more information on this type of exam please visit www.uow.edu.au/student/exams/on-campus-exams All enrolled students are required to be present for the exam. It is essential to consider your ability to attend an on-campus exam before enrolling in this course. All materials covered in lectures and tutorials, including key references and readings for all topics, are subject to examination. Sample exam question styles will be available on the ACCY122 Moodle site as a guide.

UOW Grade Descriptors

The UOW Grade Descriptors are general statements that communicate what our grades represent, in terms of standards of performance, and provide a frame of reference to ensure that assessment practice across the University is appropriate, consistent and fair. Grade Descriptors are expressed in general terms so that they are applicable to a broad range of disciplines. Grade Descriptors are available here https://www.uow.edu.au/student/exams/results/. For more information on the UOW grade descriptors refer to the Teaching and Assessment: Assessment and Feedback Policy: https://documents.uow.edu.au/about/policy/alphalisting/UOW222910.html

Assessment Learning Outcome Matrix

Learning Outcomes	Measures - Assessment weighting		
	Quiz	Xero Assessment	Final Examination
	(30%)	*(20%)*	*(50%)*
Explain the nature, role and importance of ethics to the accounting profession.	✓		✓
Explore and describe the foundational principles that inform accounting practice.	✓		✓
Demonstrate technical competence in applying the principles of double-entry accounting and preparing financial statements.	✓	✓	✓
Demonstrate the appropriate skills needed to use accounting software to record business transactions, process accounting information and prepare financial statements.		✓	

Minimum Performance Requirements

To be eligible to pass this subject, students must obtain a minimum of 50% in the final examination or major piece of assessment (where there is no final exam).

In accordance with the Coursework Rules where a student gains a mark of 50 or greater and does not meet the specified level in an assessment task required to pass the subject, a Technical Fail (TF) grade for the subject will appear on their Academic Transcript.

Where a Technical Fail is given the following applies:

a. Failure of the subject;
b. a TF without a mark will be granted;
c. a TF will be presented on the student's academic transcript;
d. The allocated mark of 49 will be used as the WAM calculation for subjects at all levels.

Students are expected to engage in any online learning activities and participate in seminars/tutorials/workshops in order to achieve the Subject Learning Outcomes. Students are expected to have completed readings, watched any lecture material, and completed any relevant exercises prior to attending/joining seminars/tutorials/workshops and to participate actively and constructively in any learning activity associated with this subject. Students should note UOW policy states each credit point equates to around 1.5 - 2 hours of work (engagement hours involving attendance and self-directed study) per week for a subject delivered in a standard session (10-13 weeks plus study and exam period (if applicable)).

Types of Assessment and Collaboration

Collaboration between students during the preparation of subject assessment tasks or case studies is only permitted dependent upon the category of assessment task declared by the subject coordinator and as printed in the Subject Outline.

Type 1 - At home exams (online) or Take home exams No collaboration of any kind is permitted between students or anyone else during formation and preparation of the contents of the student submission.

Type 2 - Group work: Collaboration is permitted between students in the same group but not with students in other groups.

Type 3 - Individual assessment: Collaboration is permitted between students only in the form of general discussion pertaining to relevant concepts or potential issues to be dealt with in completing the assessment. However, collaboration must not proceed to the point where it contributes directly to the final submission produced by the student. Joint planning of the actual contents of a student's submission is not permitted. Where the assessment requires formulation of a set of recommendations, a problem solution, or a specific course of action, collaboration is not permitted during their formulation. Needless to say, collaboration is not permitted during the actual preparation and writing of the student submission.

Type 4 - Open assessment: Collaboration with other students is permitted, subject to the normal rules governing plagiarism and academic integrity. That is, direct use of ideas contributed by others must be acknowledged.

Type 5 - Individual assessment and group work: Collaboration is permitted with other members of your group, but not with other groups for the group work component. No collaboration is permitted with other members of your group for the individual component.

Using Generative Artificial Intelligence (GenAI)

GenAI technology (such as ChatGPT or Microsoft Co-pilot) is reshaping the University experience worldwide. UOW is committed to embracing GenAI as a tool to enhance learning experiences and develop vital work-readiness skills. However, misuse or use of GenAI in assessments where prohibited constitutes academic misconduct (as specified by University Policy).

It is important that students check if GenAI is permitted for each assessment task and how it is to be used and acknowledged. Please read the student guidance available on how to use GenAI ethically and critically, equally recognising its capabilities and limitations. For example:

1. **Generative AI is not a substitute for decision-making**: GenAI should complement, not replace, your critical thinking and decision-making skills.

2. **Output quality depends on prompts**: The quality of GenAI outputs is influenced by prompting. Poorly constructed or unclear prompts may generate outputs that are incorrect.

3. **Fact verification is essential**: GenAI outputs can be fabricated, presenting inaccurate information or contain harmful bias. Verify all GenAI outputs against reliable sources.

4. **Protect data and copyright**: Many GenAI technologies collect information in ways that breach privacy and data protection provisions, particularly where the source material is confidential or subject to copyright. Please check the Terms and Conditions of GenAI technologies and if unsure, contact UOW Copyright Guidance.

5. **Transparency in use**: Where required, you must acknowledge GenAI use, including providing prompt histories and detailing how GenAI was utilised.

6. **Thoughtful and appropriate application**: Be mindful of when and how to use GenAI tools. Assess its appropriateness for each use, and refrain from use when not suitable.

If you have any questions, please contact your Subject Coordinator.

Submission, Retention and Collection of Written Assessment

Submitting Assessment Tasks

Assessed work must be handed in by the date and time listed under each assessment task. All assessment tasks must represent the enrolled student's own ORIGINAL work and must not have been previously submitted for assessment in any formal course of study.

Tasks must be submitted by the method outlined against each assessment task. Students may not e-mail or post assessment tasks unless specifically requested by or with the prior approval of the Subject Coordinator. Where an assessment task is submitted electronically (via Moodle), the procedure for electronic submission will be set out on the Moodle site.

A Faculty of Business and Law assignment cover sheet must be attached to each piece of written assessment task. This is not required for electronic submissions via Moodle. This cover sheet can be obtained from the website: https://business.uow.edu.au/businesscentral/UOW155483.html. Students should ensure they receive a receipt of submission and retain this for proof of submission.

Extensions

Students requesting an extension of time to submit an assessment task, deferred exam or exemption of a compulsory attendance requirement, must apply using Academic Consideration through SOLS. Students must apply before, or on the assessment/s due date and where evidence is required, students must provide evidence no later than three working days after the assessable item's due date for their request to be considered. **For information on the Academic Consideration Policy, eligibility requirements and how to apply, see**: https://www.uow.edu.au/student/admin/academic-consideration/

Late Submission of Assessment Tasks

Assessed work must be submitted in by the date and time given. If an assessment is submitted late, it will be marked in the normal way, and a penalty will then be applied.

In the absence of an approved request for Academic Consideration in the form of an extension, assessment tasks must be submitted in line with the assessment instructions.

- An assessment task that is submitted late will receive a penalty of 5% of the total available mark for each 24-hour period, or part thereof, that it is late.
- Work submitted after seven calendar days will not be marked and will be given a mark of 0.
- No assessment task can be handed in for a mark once the assessment task has been returned to students.

Penalties accrue on each day that the assessment task is late, including Saturday, Sunday and public holidays

Note: Assessments must still be submitted to meet minimum performance requirements even though no mark is to be awarded.

Collection

Assessment items will normally be returned to students within three (3) weeks of the due date. Assessment tasks which are relevant to the final examination for the subject will be marked and available for collection prior to the study week before the final examination.

Retention

The university may retain copies of student work in order to facilitate quality assurance of assessment processes, in support of the continuous improvement of assessment design, assessment marking and for the review of the subject. The University retains records of students' academic work in accordance with the University Records Management Policy and the State Records Act 1988 and uses these records in accordance with the University Privacy Policy and the Privacy and Personal Information Protection Act 1998.

Scaling

Marks awarded for any assessment task (including examinations) may be subject to scaling at the end of the session by the School Assessment Committee (SAC) and/or the Faculty Assessment Committee (FAC). Marks may be scaled in accordance with University policy. Scaling will not affect any individual student's rank order within their cohort. For more information refer to Standards for Finalisation of Student Results https://www.uow.edu.au/about/policy/UOW039331.html.

Supplementary Assessment

Supplementary assessment tasks may be offered to students whose performance in this subject is close to that required to pass the subject, and are otherwise identified as meriting an offer of a supplementary assessment. The Subject Coordinator will determine the precise form of supplementary assessment at the time the offer of a supplementary is made. In some circumstances you may be offered a supplementary exam. For more information about Supplementary Assessment refer to:
http://www.uow.edu.au/student/exams/aboutsupp/index.html

Review and Appeal of Academic Decisions

A student may request an explanation of a mark for an assessment task or a final grade for a subject consistent with the student's right to appropriate and useful feedback on their performance in an assessment task. A student may also seek further explanation for other academic decisions such as Academic Consideration, Supplementary Assessment or Credit for Prior Learning. If a student is not satisfied with the explanation, or have further concerns, they may have grounds for a formal review. For further information refer to https://documents.uow.edu.au/about/policy/students/UOW189967.html

Assessment Quality Cycle

The UOW Assessment Quality Cycle provides a level of assurance that assessment practices across the University are appropriate, consistent and fair. Quality assurance activities are undertaken to support the continuous improvement of assessment and promote good practices in relation to assessment design, marking and review of the subject prior to subsequent delivery.

Assurance of Learning (What will students learn in their degree?)

The Faculty of Business and Law ensures each degree has specified course learning outcomes which assure that students attain knowledge, skills and competencies at the appropriate qualification level. These course learning outcomes align with the curriculum. These are evaluated through existing assessment tasks within subjects. The Faculty uses Assurance of Learning (AOL) to assess how students meet the specified course learning outcomes and how well our graduates have achieved these. AOL collects and analyses student results data to continuously improve degrees offered by the Faculty which leads to improved student learning.

Academic Integrity

The University's Academic Integrity Policy, faculty Moodle sites and subject guides clearly set out the University's expectation that students submit only their own original work for assessment and avoid plagiarising the work of others or cheating. Re-using any of your own work (either in part or in full) which you have submitted previously for assessment is not permitted without appropriate acknowledgement. Plagiarism can be detected and has led to students being expelled from the University.

The use by students of any website that provides access to essays or other assessment items (sometimes marketed as 'resources'), is extremely unwise. Students who provide an assessment item (or provide access to an assessment item) to others, either directly or indirectly (for example by uploading an assessment item to a website) are considered by the university to be intentionally or recklessly helping other students to cheat. Uploading an assessment task, subject outline or other course materials without express permission of the University is considered academic misconduct and students place themselves at risk of being expelled from the University.

Students should visit the following University website and become familiar with the University's policy on plagiarism https://www.uow.edu.au/about/policy/UOW058648.html

Plagiarism Prevention

The Faculty of Business and Law has introduced an e-learning module which aims to orientate you with the knowledge and resources to:

- avoid problems related to plagiarism
- develop your capacity to integrate evidence into your arguments
- reference correctly.

The online module is openly available for use by students at **any stage** in their degree. You are **strongly encouraged** to use the module to help in assessing the academic integrity of your written work. The module can be accessed via https://moodle.uowplatform.edu.au/course/view.php?id=5679

Referencing

The Author-Date (Harvard) referencing system should, unless otherwise specified for a particular assessment (check Details of Assessment Tasks), be utilised. A summary of the Harvard system can be accessed on the Library website at: http://uow.libguides.com/refcite.

Section C: General Advice for Students - Policies and Procedures

For general information on university policies and procedures relevant to students, and for details about the range of Student Services available, please see Student Resources, Policies and Procedures which can be accessed online at https://www.uow.edu.au/business-law/current-students/policies-and-procedures/
