SCIT

School of Computing and Information Technology
Faculty of Engineering & Information Sciences

SIM Session 2, 2026
Subject Outline
MGNT110: Introduction to Management

Subject Organisation

Lecturer/Tutor: Ms. Jesslyn Lau

Email: Jesslyn@uow.edu.au

Subject Moderator: Dr. Rebekah Schulz

Credit Points: 6

Lecture Times & Location: Refer to SOL

The University uses the eLearning system Moodle to support all coursework subjects.

Students should check the subject's Moodle site regularly as important information, including **details of unavoidable changes in assessment requirements will be posted from time to time** http://www.uow.edu.au/student/. Any information posted to the web site is deemed to have been notified to all students.

In extraordinary circumstances the provisions stipulated in this Subject Outline may require amendment after the Subject Outline has been distributed. All students enrolled in the subject must be notified and have the opportunity to provide feedback in relation to the proposed amendment, prior to the amendment being finalised.

Data on student performance and engagement (such as Moodle and University Library usage, task marks, use of SOLS) will be available to the Subject Coordinator to assist in analysing student engagement, and to identify and recommend support to students who may be at risk of failure. If you have questions about the kinds of data the University uses, how we collect it, and how we protect your privacy in the use of this data, please refer to http://www.uow.edu.au/dvca/bala/analytics/index.html

Head of School – Professor Jun Shen
Tel: (612) 4221 5535
Academic Program Director – Dr Guoxin Su
Tel: (612) 4221 5001

Subject Description

This subject introduces management as a process designed to communicate and coordinate action to achieve organisational objectives. The subject introduces students to the concepts of managing and organisations through dominant management perspectives and theories. Students will develop skills relating to critical thinking, collaboration and communication skills as tools for analysing management and organisational issues.

Subject Learning Outcomes

On successful completion of this subject, students will be able to:
1. Describe the process of management and its role in organisations.
2. Explain the importance of context in management and organisation studies.
3. Analyse contrasting perspectives in management theories and practices.
4. Communicate the contribution of management in developing socially responsible organisations.

Recent Improvements

The School is committed to continual improvement in teaching and learning and takes into consideration student feedback from many sources. These sources include direct student feedback to tutors and lecturers, feedback through Student Services and the Faculty Central, and responses to the Subject Evaluation Surveys. This information is also used to inform comprehensive reviews of subjects and courses.

Attendance Requirements

It is the responsibility of students to attend all lectures/tutorials/labs/seminars/practical work for subjects for which you are enrolled.

Satisfactory attendance is deemed by the University, to be attendance at approximately 80% of the allocated contact hours.

Using Generative Artificial Intelligence (GenAI)

GenAI technology (such as ChatGPT or Microsoft Co-pilot) is reshaping the University experience worldwide. UOW is committed to embracing GenAI as a tool to enhance learning experiences and develop vital work-readiness skills. However, misuse or use of GenAI in assessments where prohibited constitutes academic misconduct (as specified by University Policy).

It is important that students check if GenAI is permitted for each assessment task and how it is to be used and acknowledged. Please read the student guidance available on how to use GenAI ethically and critically, equally recognising its capabilities and limitations. For example:

Copyright SCIT, University of Wollongong, 2026

1. **Generative AI is not a substitute for decision-making**: GenAI should complement, not replace, your critical thinking and decision-making skills.

2. **Output quality depends on prompts**: The quality of GenAI outputs is influenced by prompting. Poorly constructed or unclear prompts may generate outputs that are incorrect.

3. **Fact verification is essential**: GenAI outputs can be fabricated, presenting inaccurate information or contain harmful bias. Verify all GenAI outputs against reliable sources.

4. **Protect data and copyright**: Many GenAI technologies collect information in ways that breach privacy and data protection provisions, particularly where the source material is confidential or subject to copyright. Please check the Terms and Conditions of GenAI technologies and if unsure, contact UOW Copyright Guidance.

5. **Transparency in use**: Where required, you must acknowledge GenAI use, including providing prompt histories and detailing how GenAI was utilised.

6. **Thoughtful and appropriate application**: Be mindful of when and how to use GenAI tools. Assess its appropriateness for each use, and refrain from use when not suitable.

If you have any questions, please contact your Subject Coordinator.

Method of Presentation

The subject will be presented as a series of lectures and tutorials.

Students must be aware that they are responsible for their own learning. Students must prepare adequately for lectures and tutorials in order to properly digest the material presented in those forms. Students are expected to undertake private study in order to fully understand and integrate all the material covered in this unit.

Lecture Schedule

Lecture Program for Full Time Students (S2, 2026)

Session	Topic	Text Ref
1	Introduction to Management	Chapter 1
2	Managing Individuals	Chapter 2
3	Managing Teams and Groups	Chapter 3
4	Managing Leading and Culture	Chapter 4 and 5
5	Managing Conflicts	Chapter 6
6	Reflection Essay Preparation	NA
7	Managing Innovation and Change	Chapter 10
8	Managing Globalisation	Chapter 12
9	Managing Ethics	Chapter 13

Copyright SCIT, University of Wollongong, 2026

10	Closure, and Q&A session	NA

Lecture Program for Part Time Students (S2, 2026)

Session	Topic	Text Ref
1	Introduction to Management	Chapter 1
2	Managing Individuals	Chapter 2
3	Managing Teams and Groups	Chapter 3
4	Managing Leading and Culture	Chapter 4 and 5
5	Managing Conflicts	Chapter 6
6	Reflection Essay Preparation	NA
7	Managing Innovation and Change	Chapter 10
8	Managing Globalisation	Chapter 12
9	Managing Ethics	Chapter 13

Tutorial for Full time Students

Session	Topic	Text Ref
1	Individual Reflection Consultation	Chapter 1, 2, 3
2	Group Report Consultation	Chapter 6
3	Group Report Consultation	Chapter 6
4	Group Presentation 1/2	NA
5	Group Presentation 2/2	NA

Tutorial for Part time Students

Session	Topic	Text Ref
1	Individual Reflection Consultation	Chapter 1, 2, 3
2	Group Report Consultation	Chapter 6
3	Group Presentation 1/2	NA
4	Group Presentation 1/2	NA

* The above times and program may be subject to change. Students will be notified of any change via SOLS.

Copyright SCIT, University of Wollongong, 2026

Subject Material

Any readings/references are recommended only and are not intended to be an exhaustive list. Students are encouraged to use the library catalogue and databases to locate additional readings.

eLearning, Readings, References and Materials

The University uses the eLearning system Moodle to support all coursework subjects. The subject Moodle site can be accessed via SOLS.

You can find guidelines to eLearning here
http://www.uow.edu.au/student/elearning/guide/index.html

Textbooks

Clegg, SR, Pitsis, TS and Mount, M 2025, Managing and Organizations: An Introduction to Theory and Practice, 6th Edition. Sage: London.
A special discounted price of AU$66.00 has been negotiated for this e-textbook for MGNT110 students. Access to this special discounted price via the following instructions:

1. Go to UOW bookshop website https://unishop.uow.edu.au/
2. Click on 'e-textbooks'
3. On the search box, put in the following ISBN 9781529603095 and search
4. Then, you will be taken to the following page: https://unishopuow.vitalsource.com/products/university-of-wollongong-managing-andstewart-r-clegg-tyrone-s-v9781529603095?term=9781529603095
5. From here you will be able to purchase your e-text at the special price.

It advised that students have regular access to the textbook as Assessment 1 draws on the textbook chapters. Limited copies of the textbook will be available for students to borrow in all UOW Libraries. Please contact the library. If you wish to purchase a physical copy of the textbook please contact the UniShop via https://unishop.uow.edu.au directly.

Please note the above price is only available to MGNT110 students via the above process. Other readings for this subject are available via the Moodle site by clicking on the Subject Readings Icon. For a how-to guide click on My Library tab at the top of the Moodle site and then clicking on the Readings link in the drop down menu.

Textbook details are available online from the University Bookshop at
https://unishop.uow.edu.au/

Copyright SCIT, University of Wollongong, 2026

Recommended Background and Further Reading A selection of readings has been identified to supplement the textbook. You can also search journals such as the following ones, which can be accessed through the UOW Library:

- Organization Studies
- Organization: The Interdisciplinary Journal of Organization, Theory and Society Organization Science
- Organizational Dynamics
- Organizational Research Methods
- Journal of Management Inquiry
- Administrative Science Quarterly
- Administrative Theory and Praxis

This is not an exhaustive list of references. Students should also use the library catalogue and databases to locate additional resources.

Assessment

This subject has the following assessment components.

Assessment Item	Form of Assessment	%
Assessment 1	Quiz	25%
Assessment 2	Presentation (Group)	35%
Assessment 3	Exam	40%
	TOTAL MARKS	100%

Please note: Copies of student work may be retained by the University in order to facilitate quality assurance of assessment processes.

Copyright SCIT, University of Wollongong, 2026

Assessment 1: Quiz - Quizzes

Marking Criteria	You will complete three quizzes. Each quiz will be marked out of 100. Each quiz will contribute the following to your overall mark: Quiz 1 (worth 5% of overall mark for this subject) Quiz 2 (worth 10% of overall mark for this subject) Quiz 3 (worth 10% of overall mark for this subject) Marks will be awarded based on the accuracy of the answers. Correct answers will be awarded full marks for that question. Incorrect answers or unattempted questions will receive zero marks.
Length	10 minutes per quiz. 10 questions per quiz.
Weighting	25%
Assessment Due	18 Apr 2026 25 Apr 2026 09 May 2026 Final submission time: 3:30pm
Type of Collaboration	Individual assessment
Style and format	Access to the online quiz is available via the subject Moodle site, under the Assessment 1 tab. Questions will be presented in a clear and concise manner, using plain language and avoiding ambiguity or confusing phrasing. Questions will be a mix of multiple choice, true and false, and matching terms. You will be given a selection of questions chosen randomly from a bank of questions. Each student will receive a different selection of questions, in random order.
Generative AI use	**You are NOT permitted to use Generative AI to complete this assessment.** You should rely on your memory to complete the quiz. This is good practice for the final exam where there is no access to support resources.

Copyright SCIT, University of Wollongong, 2026

	Additionally, due to the time constraints, you will not have time to consult Generative AI, your notes or use online resources to help you during the quiz. Finally, questions often directly relate to information conveyed in the lectures or textbook. GenAI does not have access to this information and is likely to guess the answer. Students are required to uphold academic integrity by submitting their own original work. If there are concerns about the authenticity of a submission, a meeting with the Subject Coordinator will be arranged. This meeting aims to clarify the student's understanding of the assessment task and the assessable concepts, providing an opportunity to address any issues and uphold the principles of academic honesty and fairness in evaluation.
Assessment submission	Online via Moodle

Assessment return	Marks and feedback will be available via Moodle at the closure of each quiz.
	
	How to find your quiz results:
	
	• In the Assessment tab of the subject Moodle site, click on the quiz you completed (Quiz 1, Quiz 2, or Quiz 3).
	• Click on the quiz name to open the summary page.
	• Look for the *Your Attempt* section, which shows your score.
	
	Check your answers:
	
	• On the quiz summary page, click on *Review Attempt.*
	• For each question, you will see:
	  o Your response.
	  o The correct answer (if applicable).
	  o Feedback, explaining why your response was correct or incorrect (if applicable).
	
	Understand the feedback:
	
	• Feedback is designed to help you learn from your mistakes and understand key concepts. Use it to identify areas where further study might be needed.
	
	Need help?
	If you have any questions once you receive your mark and feedback please:
	
	1. Check the Announcements in Moodle - there might already be an answer to your question;
	2. Talk to your tutor at the end of the tutorial

Detailed information	Quiz 1 - This quiz will draw on content from Weeks 1-2. The quiz will open on Saturday in Week 2. Quiz 2 - This quiz will draw on content from Weeks 1-3. The quiz will open on Saturday in Week 3. Quiz 3 - This quiz will draw on content from Weeks 1-5. The quiz will open on Saturday in Week 5.

Copyright SCIT, University of Wollongong, 2026

	NO EXTENSIONS. If you miss a quiz deadline, you cannot complete that quiz. Instead, you will need to apply for Academic Consideration. If you have an approved Academic Consideration, you will sit a supplementary quiz in Week 7.

Assessment 2: Presentation - Presentation and Reflection

Marking Criteria	This assessment task will be marked according to the following criteria: **PART A - PRESENTATION (worth 5% of overall mark for this subject)** The presentation will be marked out of 100 with the following criteria: **Business knowledge** – Understands management concepts and appropriately applies them to demonstrate business knowledge. (10%) **Decision-making** – Makes responsible decisions by applying reason and a logical argument based on the business scenario presented in the case study evidence and underpins the decision with reference to relevant management theory. (10%) **Teamwork** - The group presents as a cohesive team, with each member contributing equally and meaningfully. Transitions between speakers are smooth, roles are clearly defined, and all members demonstrate preparation, engagement, and mutual support throughout the presentation. (20%) **Communication** – Clear and purposeful oral and written communication that is appropriate for the stated audience. (50%) **Referencing** - Appropriate use of UOW Harvard Referencing style and applies relevant lecture material and academic sources. (10%) If you fail to complete this task, you will receive a zero mark for the presentation. **PART B - REFLECTION (worth 25% of overall mark for this subject)** The reflection will be marked out of 100 with the following criteria: **Business knowledge** – Understands management concepts and appropriately applies them to demonstrate business knowledge. (15%) **Reflection** – Demonstrates an awareness of your own performance within a group environment, recognises your personal role, and develops a realistic action plan for future improvement. (30%) **Critical thinking** – Establishes an evidence-based argument by coherently evaluating a range of information including primary evidence, different perspectives, and systematically analysing your own and others' assumptions. (30%) **Communication** – Communicates effectively using a reflective essay writing style. (10%) **Referencing** - Appropriate use of UOW Harvard Referencing style and applies relevant lecture material and academic sources. (15%) **PART C - PEER REVIEW (worth 5% of overall mark for this subject)** The peer review will be marked out of 100 with the following criteria: **Contribution** - Actively participates and shares ideas, contributing fairly to the workload. (20%) **Knowledge** - Demonstrates a strong understanding of the subject matter, using lecture and tutorial content. (20%) **Communication** - Communicates respectfully and professionally, maintaining a positive attitude. (20%)

Copyright SCIT, University of Wollongong, 2026

	Quality of work - Produces accurate and thorough work. (20%) **Time management** - Meets deadlines, prioritises tasks, and helps the group manage time effectively. (20%) If you fail to complete this task, you will receive a zero mark for the peer review.
	Further details on the marking criteria are available in the marking rubrics, available from the subject Moodle site.
Length	**(Part A)** Group presentation, each person 2mins - group work. 2 minutes answering audience questions. **(Part B)** 3 page reflection - individual work (excluding the coversheet, reference list and appendices). **(Part C)** An online peer evaluation - individual work.
Weighting	35%
Assessment Due	To Be Announced Final submission time: 8:30am
Type of Collaboration	Group Assessment
Style and format	**(Part A) The group members will deliver their presentation during the tutorial and submit the presentation slides in PDF format.** The presentation slides will be professionally designed using relevant software (e.g. Powerpoint, Canva, Google Slides etc) with each group member contributing equally to its development. Slides will include a reference list. Support for the creation of engaging presentations using relevant software is available here: Academic skills and study support - University of Wollongong – UOW Only one member of each group is required to submit the presentation slides via Turnitin. However, all members are responsible for ensuring this task is completed by the deadline. **(Part B) Each individual student will submit a three-page reflection** in an **MS Word document** using the reflection framework developed by Gibbs (1988). The document is to be typed with a 10-12 point font of Times Roman or Arial, double-spaced and with margins of maximum 2 cm all round. Gibbs, G 1988, *Learning by Doing: A Guide to Teaching and Learning Methods*, 1st edn, Oxford Centre for Staff and Learning Development, Oxford. **(Part C) Peer review.** Each individual student will complete an online assessment of their peers and how they contributed to the team. This peer review is available under the subject Moodle site, Assessment 2 tab.
Generative AI use	You may use generative AI as a tool to assist you with this assessment task. However, be aware that relying on AI outputs has significant drawbacks. AI models can produce inaccurate, biased, or plagiarised content, and they lack true understanding of the subject matter. Your work should reflect your own critical thinking, analysis, and original ideas. AI should only be used as a supplementary aid, and you are responsible for verifying the accuracy and originality of any AI-generated content you include. If you use AI, you must reference how you used it. Students are required to uphold academic integrity by submitting their own

Copyright SCIT, University of Wollongong, 2026

	original work. If there are concerns about the authenticity of a submission, a meeting with the Subject Coordinator will be arranged. This meeting aims to clarify the student's understanding of the assessment task, providing an opportunity to address any issues and uphold the principles of academic honesty and fairness in evaluation.
Assessment submission	Online via Moodle This assessment task has been set up to be checked by Turnitin, a tool for checking if it has unreferenced content. You can submit your assessment task to Turnitin prior to the due date and Turnitin will give you an originality
	report. You can then make any changes that may be required and re-submit your final version by the due date.
Assessment return	Marks and feedback will be returned via Moodle three weeks after submission. If you have any questions once you receive your mark and feedback, please: 1. Carefully read the feedback provided in Turnitin; 2. Check the Announcements in Moodle - there might already be an answer to your question; 3. Talk to your tutor at the end of the tutorial;

Copyright SCIT, University of Wollongong, 2026

Detailed information	**Assessment due:** **(PART A) Presentation** • submit slides via Turnitin • deliver presentation, live, during your tutorial **(PART B) Reflection** • submit reflection via Turnitin **(PART C) Peer review** • submit peer review via Feedback Fruits **Instructions:** **Download and read the Case study: Saltwater Point University Group 51**, available on the subject Moodle site under the "Assessment 2" tab. **(Part A) Presentation** Your team will deliver a presentation during your tutorial, using slides that are projected for your audience. In addition, one member of the team must submit the presentation slides to Turnitin by the deadlines. You are a team of graduates from Saltwater Point University and have been asked to give Group 51 guidance on how to work as a functional group in future. Drawing on the evidence provided in the case study, you are asked to 1. introduce your team and clearly state the purpose of your presentation 2. explain how Group 51 functioned as a team, 3. identify one significant issue for the group related to managing teams or motivation and justify why this issue is significant, 4. analyse this issue using one relevant theory related to managing teams or motivation, and 5. provide recommendations for how the team could resolve or mitigate this issue in the future. 6. include a reference list in your final slide using UOW Harvard referencing style. In-text citations must also be included throughout the presentation slides wherever theory or sources are used.

Copyright SCIT, University of Wollongong, 2026

7. include an acknowledgement of generative AI use (if applicable).

You are required to use the Week 3 lectures on managing teams and motivation, refer to textbook chapters 3 and 4 (Clegg et al. 2024), and include at least four scholarly references sourced through the UOW Library. You will present your slides and findings as a team. You will have estimated 14 minutes in total during your tutorial to deliver your presentation, including:

- 2 minutes each person, for delivery of your presentation
- 2 minutes to answer audience and tutor questions.

Ask yourself this: Before you present your advice to Group 51, would that advice actually help you if you were in their situation? Effective guidance is practical, realistic, and grounded in the theories you have studied and the evidence you have analysed. Make sure your recommendations are something a real group of first year students could understand and act on.

All members of your group must present during the tutorial. Each group member is expected to contribute equally to the assessment task. For example, all group members must have comparable speaking time. Students who do not contribute equally to the assessment task may be marked separately from their group based on their individual contribution.

Students who experience difficulties with group participation must raise the issue early and follow the Group Work Support Factsheet available on the subject Moodle site: SUBJ294_S126: Group work support factsheet | UOW Learning Platform. This process begins by notifying your tutor during your tutorial. Once you notify your tutor of your concerns, they will talk you through the required steps.

Students who engage proactively with this process, meet their own responsibilities, and follow tutor guidance will not be disadvantaged for the actions or inaction of others.

(Part B) Reflection
Reflect on your contribution to the teamwork and presentation for Assessment 2. You will be required to adopt a first-person perspective. Use your insights to improve how you work with others and communicate your ideas in future academic and professional tasks.

Use the structured reflection framework below to guide your three-page submission. This task is based on Gibbs' reflection framework and must include academic references and primary evidence from your group experience in the appendices.

Include the following in your reflection

- **Coversheet**
  - Use the provided coversheet: SUBJ294_S126: Coversheet | UOW Learning Platform

Copyright SCIT, University of Wollongong, 2026

	• **Description (What happened?)** ○ Describe how your group was formed, what your team hoped to achieve and how you contributed to communication, task delegation, meeting deadlines, conflict resolution, applying management theories and preparing the group presentation.

Copyright SCIT, University of Wollongong, 2026

	◦ Use evidence from your appendices to support your description. • **Feelings (What were you thinking and feeling?)** ◦ Describe your initial reactions to the group task, including your feelings about working with others, presenting as part of a team, and how your feelings changed over time and was dependent on emerging issues. • **Evaluation (What worked well or didn't?)** ◦ Assess your personal effectiveness in collaborating with your team, communicating ideas, managing your assigned role(s) in the group. ◦ What were your strengths? Where did you struggle? • **Analysis (Why did things happen that way?)** ◦ Choose ONE specific challenge, conflict, or success that has been described earlier in the reflection. ◦ Using ONE management theory related to management of teams (Week 3), motivation (Week 3), leadership (Week 4), conflict (Week 5) or power and politics (Week 6), analyse what happened. Analyse your role in shaping the team's outcome in relation to this issue and chosen theory. • **Conclusion (What did you learn?)** ◦ Summarise key insights, particularly: What you learned about yourself and what you will do differently next time. • **Action plan (What will you do in future?)** ◦ Based on your chosen theory and your conclusion, list clear steps you will take to improve in relation to this one issue. ◦ Your SMART action plan should be clear and achievable, and informed by the theory used in your analysis. • **Reference list** • **Acknowledgement of generative AI use (if applicable)** • **Appendices (Evidence to support your reflection)** ◦ Include all primary evidence that supports the claims made in your reflection. ◦ Examples might include screenshots or extracts of group communication (e.g. messaging apps or shared documents), your team expectations document, team meeting agendas or minutes, career development goals from the tutorial, photographs of meeting spaces your team used, draft slides or early contributions that show progress. ◦ Each appendix should be labelled (Appendix 1, 2, etc.) and referred to in the main body of your reflection (Appendix 1, Appendix 2, etc.). **(Part C) Peer review via Feedback Fruit on Moodle** For the student peer review, each student will assess their group members based on their contributions to the group work, performance within their assigned roles, demonstration of professionalism, quality of work produced, and effectiveness in managing time. **OVERALL REQUIREMENTS** Use UOW Harvard referencing in this assessment task.

Copyright SCIT, University of Wollongong, 2026

Assessment 3: Exam - Final exam

Marking Criteria	The exam will be marked out of 100 with the following criteria: **PART A - SHORT ANSWERS (worth 12% of the overall mark for this subject)** Marks will be awarded based on the accuracy of the answers. Each correct answer will be awarded full marks (three marks). Partially correct answers will receive one to two marks. Incorrect answers or unattempted questions will receive zero marks. (30%) **PART B - REFLECTION (worth 28% of the overall mark for this subject)** **Business knowledge** – Understands management concepts and appropriately applies them to the scenario to demonstrate business knowledge. (20%) **Reflection** – Demonstrates insight into how you (as the employee) respond to the situation. Identifies personal assumptions, emotional responses, and areas for development. (20%) **Critical thinking** – Analyses the situation using theory and evidence. Evaluates different perspectives and recognises the influence of organisational contexts. (20%) **Communication** – Communicates effectively using a reflective essay writing style. (10%) Further details on the marking criteria are available in the marking rubric, available from the subject Moodle site.
Length	2 hours
Weighting	40%
Assessment Due	To Be Announced
Type of Collaboration	Individual assessment
Style and format	**PART A - SHORT ANSWERS** This section of the assessment will require you to write short answers to a series of questions. **PART B - REFLECTION** This section of the assessment should be written in a reflective writing style using Gibbs (1988) reflection framework. Gibbs, G 1988, *Learning by Doing: A Guide to Teaching and Learning Methods*, 1st edn, Oxford Centre for Staff and Learning Development, Oxford. Guidelines for reflective writing can be found here: https://www.uow.edu.au/student/support-services/academic-skills/online-resources/assessments/reflective-writing/
Generative AI use	You are NOT permitted to use generative AI in this exam as you will not have access to any digital devices or support resources.
Assessment submission	The final exam will be held during the official UOW exam period. Students must ensure they are available for the entire duration of this period. You will receive a SOLSmail notification once full details of the exam format and scheduled date are available in the SOLS Exam Timetable.
Assessment return	Exam papers will not be returned. Following the release of grades, if you have any questions please:

Copyright SCIT, University of Wollongong, 2026

	1. Check the Announcements in Moodle - there might already be an answer to your question;

Copyright SCIT, University of Wollongong, 2026

	2. Book a meeting with the Subject Coordinator: https://calendly.com/rschulz-uow/mgnt110_208 who is available to provide feedback on your exam performance.
Detailed information	**HURDLE ASSESSMENT** To pass the subject students must receive a pass grade (50%) or higher in this assessment and an overall mark of 50% or more in the subject. **PART A - SHORT ANSWERS** The exam includes 10 short answer questions. Questions draw on lecture and textbook content from Weeks 1-13. You are advised to spend *no more than 40 minutes* on this section. **PART B - REFLECTION** In this section of the exam, you will write a reflective essay in response to a short, written scenario provided during the exam. You will be required to adopt a first-person perspective and apply management theories to analyse the situation, reflect on your own responses and assumptions to this scenario, and develop an action plan for your own professional growth. The reflective essay will relate to ONE of the following topics: 1. Managing cultures and diversity 2. Managing innovation and change 3. Managing globalisation The chosen topic will be provided in the exam paper. Use the Gibbs (1988) reflection framework to structure your response. You are advised to allow *at least 1 hour and 20 minutes* for this section. **MORE INFORMATION** Further instructions, the chosen topic and the scenario will be provided during the exam.

Additional Assessment Information

Refer to Moodle.

UOW Grade Descriptors

The UOW Grade Descriptors are general statements that communicate what our grades represent, in terms of standards of performance, and provide a frame of reference to ensure that assessment practice across the University is appropriate, consistent and fair. Grade Descriptors are expressed in general terms so that they are applicable to a broad range of disciplines. Grade Descriptors are available here https://www.uow.edu.au/student/exams/results/. For more information on the UOW grade descriptors refer to the Teaching and Assessment: Assessment and Feedback Policy: https://documents.uow.edu.au/about/policy/alphalisting/UOW222910.html

Copyright SCIT, University of Wollongong, 2026

Assessment Learning Outcome Matrix

Learning Outcomes	**Measures - Assessment weighting**		
	Quizzes *(25%)*	Presentation and reflection *(35%)*	Final exam *(40%)*
Describe the process of management and its role in organisations.	✓	✓	✓
Explain the importance of context in management and organisation studies.	✓	✓	✓
Analyse contrasting perspectives in management theories and practices.		✓	✓
Communicate the contribution of management in developing socially responsible organisations.			✓

In order to successfully pass this subject:

- All assessment tasks must be attempted and submitted as a minimum performance requirement.
- Students must gain an overall mark of 50 for the subject after any penalties for late submission and/or misconduct are applied; and
- Students must achieve a passing grade in the final examination or major piece of assessment (where there is no final exam). Students who do not meet this minimum performance requirement will receive a TF (Technical Fail) grade for this subject, which will be recorded on your Academic Transcript. This is in accordance with the UOW General Course Rules.

Minimum Performance Requirements

To be eligible to pass this subject, students must obtain a minimum of 50% in the final examination or major piece of assessment (where there is no final exam).
In accordance with the Coursework Rules where a student gains a mark of 50 or greater and does not meet the specified level in an assessment task required to pass the subject, a Technical Fail (TF) grade for the subject will appear on their Academic Transcript.

Where a Technical Fail is given the following applies:

a. Failure of the subject;
b. a TF without a mark will be granted;
c. a TF will be presented on the student's academic transcript;
d. The allocated mark of 49 will be used as the WAM calculation for subjects at all levels.

Students are expected to engage in any online learning activities and participate in seminars/tutorials/workshops in order to achieve the Subject Learning Outcomes. Students are expected to have completed readings, watched any lecture material, and completed any relevant exercises prior to attending/joining seminars/tutorials/workshops and to participate actively and constructively in any learning activity associated with this subject. Students should note that UOW policy equates 1 credit point with 2 hours of study per week that includes lectures and tutorials/workshops/practical. For example, in a 6 credit point subject, a total of 12 hours of study per week is expected.

Copyright SCIT, University of Wollongong, 2026

Hurdle Assessments

A hurdle assessment is an assessment task that mandates a minimum level of performance as a requirement for passing the subject. For example, achievement of a pass grade or above in a skills-based assessment or a final examination.

A subject may include a hurdle assessment where:

a) this is necessary to ensure students can do something safely or where this is necessary to meet professional accreditation or registration requirements;
b) the assessment is the last assessment task in a subject to assess whether students have achieved the subject learning outcome(s); or
c) the use of a hurdle assessment for a reason other than those listed above is approved by the Head of School.

Should this subject contain a hurdle assessment task, it will be mentioned under the assessment details

Types of Assessment and Collaboration

Collaboration between students during the preparation of subject assessment tasks or case studies is only permitted dependent upon the category of assessment task declared by the subject coordinator and as printed in the Subject Outline.

Type 1 - At home exams (online) or Take home exams No collaboration of any kind is permitted between students or anyone else during formation and preparation of the contents of the student submission.

Type 2 - Group work: Collaboration is permitted between students in the same group but not with students in other groups.

Type 3 - Individual assessment: Collaboration is permitted between students only in the form of general discussion pertaining to relevant concepts or potential issues to be dealt with in completing the assessment. However, collaboration must not proceed to the point where it contributes directly to the final submission produced by the student. Joint planning of the actual contents of a student's submission is not permitted. Where the assessment requires formulation of a set of recommendations, a problem solution, or a specific course of action, collaboration is not permitted during their formulation. Needless to say, collaboration is not permitted during the actual preparation and writing of the student submission.

Type 4 - Open assessment: Collaboration with other students is permitted, subject to the normal rules governing plagiarism and academic integrity. That is, direct use of ideas contributed by others must be acknowledged.

Type 5 - Individual assessment and group work: Collaboration is permitted with other members of your group, but not with other groups for the group work component. No collaboration is permitted with other members of your group for the individual component.

Submission, Retention and Collection of Written Assessment

Submitting Assessment Tasks

Assessed work must be handed in by the date and time listed under each assessment task. All assessment tasks must represent the enrolled student's own ORIGINAL work and must not have been previously submitted for assessment in any formal course of study.

Tasks must be submitted by the method outlined against each assessment task. Students may not e-mail or post assessment tasks unless specifically requested by or with the prior approval of the Subject Coordinator. Where an assessment task is submitted electronically (via Moodle), the procedure for electronic submission will be set out on the Moodle site.

A Faculty of Business and Law assignment cover sheet must be attached to each piece of written assessment task. This is not required for electronic submissions via Moodle. This cover sheet can be obtained from the website: https://business.uow.edu.au/businesscentral/UOW155483.html. Students should ensure they receive a receipt of submission and retain this for proof of submission.

Extensions

Extensions of time to submit material for assessment can only be requested in advance of the due date for an assessment activity through the Academic Consideration process on SOLS. For more information please refer to the Student Academic Consideration Policy at: http://www.uow.edu.au/about/policy/UOW058721.html

Late Submission of Assessment Tasks

Assessed work must be submitted in by the date and time given. If an assessment is submitted late, it will be marked in the normal way, and a penalty will then be applied.

In the absence of an approved request for Academic Consideration in the form of an extension, assessment tasks must be submitted in line with the assessment instructions.

- An assessment task that is submitted late will receive a penalty of 5% of the total available mark for each 24-hour period, or part thereof, that it is late.
- Work submitted after seven calendar days will not be marked and will be given a mark of 0.
- No assessment task can be handed in for a mark once the assessment task has been returned to students.

Penalties accrue on each day that the assessment task is late, including Saturday, Sunday and public holidays

Note: Assessments must still be submitted to meet minimum performance requirements even though no mark is to be awarded.

Copyright SCIT, University of Wollongong, 2026

Collection

Assessment items will normally be returned to students within three (3) weeks of the due date. Assessment tasks which are relevant to the final examination for the subject will be marked and available for collection prior to the study week before the final examination.

Retention

The university may retain copies of student work in order to facilitate quality assurance of assessment processes, in support of the continuous improvement of assessment design, assessment marking and for the review of the subject. The University retains records of students' academic work in accordance with the University Records Management Policy and the State Records Act 1988 and uses these records in accordance with the University Privacy Policy and the Privacy and Personal Information Protection Act 1998.

Scaling

Marks awarded for any assessment task (including examinations) may be subject to scaling at the end of the session by the School Assessment Committee (SAC) and/or the Faculty Assessment Committee (FAC). Marks may be scaled in accordance with University policy. Scaling will not affect any individual student's rank order within their cohort. For more information refer to Standards for Finalisation of Student Results https://www.uow.edu.au/about/policy/UOW039331.html.

Supplementary Assessment

Supplementary assessment tasks may be offered to students whose performance in this subject is close to that required to pass the subject, and are otherwise identified as meriting an offer of a supplementary assessment. The Subject Coordinator will determine the precise form of supplementary assessment at the time the offer of a supplementary is made. In some circumstances you may be offered a supplementary exam. For more information about Supplementary Assessment refer to: http://www.uow.edu.au/student/exams/aboutsupp/index.html

Copyright SCIT, University of Wollongong, 2026

Review and Appeal of Academic Decisions

A student may request an explanation of a mark for an assessment task or a final grade for a subject consistent with the student's right to appropriate and useful feedback on their performance in an assessment task. A student may also seek further explanation for other academic decisions such as Academic Consideration, Supplementary Assessment or Credit for Prior Learning. If a student is not satisfied with the explanation, or have further concerns, they may have grounds for a formal review. For further information refer to https://documents.uow.edu.au/about/policy/students/UOW189967.html

Assessment Quality Cycle

The UOW Assessment Quality Cycle provides a level of assurance that assessment practices across the University are appropriate, consistent and fair. Quality assurance activities are undertaken to support the continuous improvement of assessment and promote good practices in relation to assessment design, marking and review of the subject prior to subsequent delivery.

Assurance of Learning (What will students learn in their degree?)

The Faculty of Business and Law ensures each degree has specified course learning outcomes which assure that students attain knowledge, skills and competencies at the appropriate qualification level. These course learning outcomes align with the curriculum. These are evaluated through existing assessment tasks within subjects.
The Faculty uses Assurance of Learning (AOL) to assess how students meet the specified course learning outcomes and how well our graduates have achieved these. AOL collects and analyses student results data to continuously improve degrees offered by the Faculty which leads to improved student learning.

Academic Integrity

The University's Academic Integrity Policy, faculty moodle sites and subject guides clearly set out the University's expectation that students submit only their own original work for assessment and avoid plagiarising the work of others or cheating. Re-using any of your own work (either in part or in full) which you have submitted previously for assessment is not permitted without appropriate acknowledgement. Plagiarism can be detected and has led to students being expelled from the University.

The use by students of any website that provides access to essays or other assessment items (sometimes marketed as 'resources'), is extremely unwise. Students who provide an assessment item (or provide access to an assessment item) to others, either directly or indirectly (for example by uploading an assessment item to a website) are considered by the university to be intentionally or recklessly helping other students to cheat. Uploading an assessment task, subject outline or other course materials without express permission of the University is considered academic misconduct and students place themselves at risk of being expelled from the University.

Students should visit the following University website and become familiar with the University's policy on plagiarism https://www.uow.edu.au/about/policy/UOW058648.html

Plagiarism Prevention

The Faculty of Business and Law has introduced an e-learning module which aims to orientate you with the knowledge and resources to:

- avoid problems related to plagiarism
- develop your capacity to integrate evidence into your arguments
- reference correctly.

Copyright SCIT, University of Wollongong, 2026

The online module is openly available for use by students at any stage in their degree. You are strongly encouraged to use the module to help in assessing the academic integrity of your written work. The module can be accessed via https://moodle.uowplatform.edu.au/course/view.php?id=5679

Referencing System

The type of referencing system to be used for written work is as follows:

- the Author-Date (Harvard) referencing system is the University's default referencing system to be used in the absence of a documented faculty/school preferred referencing style. Refer to the Library Referencing and Citing link: https://www.uow.edu.au/student/learningcoop/referencingciting/index.html

Section C: General Advice for Students - Policies and Procedures

For general information on university policies and procedures relevant to students, and for details about the range of Student Services available, please see Student Resources, Policies and Procedures which can be accessed online at https://www.uow.edu.au/business-law/current-students/policies-and-procedures/

All assignments are expected to be completed independently. Plagiarism may result in a FAIL grade being recorded for that assignment.

Method of Submission of Assessment Items

Assignments are to be submitted via Moodle.

Arrangement for acknowledging submission of written work

Acknowledgement of submission will occur electronically through Moodle.

Procedure for the return of assessment items

Assignments are scheduled to be marked in the computer lab. Your assignment must be submitted first to Moodle before being marked by the tutor. You may be asked questions about your code in the lab. Your marks will be deducted if you could not answer the questions presented by the tutor. While marking your assignment, the tutor will give you feedback.

Procedure for the retention of assessed work

The University may retain copies of student work in order to facilitate quality assurance of assessment processes, in support of the continuous improvement of assessment design, assessment marking and for the review of the subject. The University retains records of students' academic work in accordance with the University Records Management Policy and the State Records Act 1988 and uses these records in accordance with the University Privacy Policy and the Privacy and Personal Information Protection Act 1998.

Assessment General

Submission of assessment items via email will not be accepted.

Student contributions to tutorial and/or seminars

Not applicable.

Copyright SCIT, University of Wollongong, 2026

Assessment task is set up to be checked by Turnitin

This subject does not use Turnitin.

Assessment Quality Cycle

The University of Wollongong is committed to the quality assurance and quality enhancement of assessment. The University will meet its legislative and regulatory obligations, to ensure consistent and appropriate assessment through course management and coordination, including assessment quality assurance procedures. An Assessment Quality Cycle is used to describe quality assurance at the points of assessment design, assessment delivery, the declaration of marks and grades, and review and improvement activities.

Internet Resources

There are no restrictions on using Internet resources.

Technical Fail

To be eligible for a Pass in this subject a student must achieve a mark of at least 50% in the Final Examination. Students who fail to achieve this minimum mark & would have otherwise passed may be given a TF (Technical Fail) for this subject.

Penalties for late submission of assessment items

Penalties apply to all late work, except if student academic consideration has been granted. Late submissions will attract a penalty of 5% of the assessment mark. This amount is per day including public holidays and weekends. Work more than 4 days late will be awarded a mark of zero.

UOW Grade Descriptors

GRADE	DESCRIPTOR
High Distinction(HD) 85-100%	For performance that provides evidence of an outstanding level of attainment of the relevant subject learning outcomes, demonstrating the attributes of a distinction grade plus (as applicable) one or more of the following: • consistent evidence of deep and critical understanding • substantial originality and insight in identifying, generating and communicating competing arguments, perspectives or problem-solving approaches • critical evaluation of problems, their solutions and their implications • use of quantitative analysis of data as the basis for deep and thoughtful judgments, drawing insightful, carefully qualified conclusions from this work • creativity in application as appropriate to the discipline • eloquent and sophisticated communication of information and ideas in terms of the conventions of the discipline • consistent application of appropriate skills, techniques and methods with outstanding levels of precision and accuracy • all or almost all answers correct, very few or none incorrect

Copyright SCIT, University of Wollongong, 2026

Distinction (D) 75-84%	For performance that provides evidence of a superior level of attainment of the relevant subject learning outcomes, demonstrating the attributes of a credit grade plus (as applicable) one or more of the following: • evidence of integration and evaluation of critical ideas, principles, concepts and/or theories • distinctive insight and ability in applying relevant skills, techniques, methods and/or concepts • demonstration of frequent originality in defining and analysing issues or problems and providing solutions • fluent and thorough communication of information and ideas in terms of the conventions of the discipline • frequent application of appropriate skills, techniques and methods with superior levels of precision and accuracy most answers correct, few incorrect
Credit (C) 65-74%	For performance that provides evidence of a high level of attainment of the relevant subject learning outcomes, demonstrating the attributes of a pass grade plus (as applicable) one or more of the following: • evidence of learning that goes beyond replication of content knowledge or skills • demonstration of solid understanding of fundamental concepts in the field of study • demonstration of the ability to apply these concepts in a variety of contexts • use of convincing arguments with appropriate coherent and logical reasoning • clear communication of information and ideas in terms of the conventions of the discipline • regular application of appropriate skills, techniques and methods with high levels of precision and accuracy many answers correct, some incorrect
Pass (P) 50-64%	For performance that provides evidence of a satisfactory level attainment of the relevant subject learning outcomes, demonstrating (as applicable) one or more of the following: • knowledge, understanding and application of fundamental concepts of the field of study • use of routine arguments with acceptable reasoning • adequate communication of information and ideas in terms of the conventions of the discipline • ability to apply appropriate skills, techniques and methods with satisfactory levels of precision and accuracy a combination of correct and incorrect answers
Fail (F) <50%	For performance that does not provide sufficient evidence of attainment of the relevant subject learning outcomes.
Technical Fail (TF)	When minimum performance level requirements for at least one assessment item in the subject as a whole has not been met despite the student achieving at least a satisfactory level of attainment of the subject learning outcomes.

Plagiarism - University's Academic Integrity Policy

The University's policy on acknowledgement practice and plagiarism provides detailed information about how to acknowledge the work of others: http://www.uow.edu.au/about/policy/UOW058648.html

The University's Academic Integrity Policy, Faculty Handbooks and subject guides clearly set out the University's expectation that students submit only their own original work for assessment and avoid plagiarising the work of others or cheating. Re-using any of your own work (either in part or in full) which you have submitted previously for assessment is not permitted without appropriate acknowledgement or without the explicit permission of the Subject Coordinator. Plagiarism can be detected and has led to students being expelled from the University.

The use by students of any website that provides access to essays or other assessment items (sometimes marketed as 'resources'), is extremely unwise. Students who provide an assessment item (or provide access to an assessment item) to others, either directly or indirectly (for example by uploading an assessment item to a website) are considered by the University to be intentionally or recklessly helping other students to cheat. Uploading an assessment task, subject outline or other course materials without express permission of the university is considered academic misconduct and students place themselves at risk of being expelled from the University.

When you submit an assessment task, you are declaring the following

1. It is your own work, and you did not collaborate with or copy from others.
2. You have read and understand your responsibilities under the University of Wollongong's Academic Integrity Policy on plagiarism.
3. You have not plagiarised from published work (including the internet). Where you have used the work from others, you have referenced it in the text and provided a reference list at the end to the assignment.

Students must remember that:

- Plagiarism will not be tolerated.
- Students are responsible for submitting original work for assessment, without plagiarising or cheating, abiding by the University's Academic Integrity Policy as set out in the University Handbook, the University's online Policy Directory and in Faculty handbooks and subject guides.

Student Academic Complaints Policy (Coursework or Higher Degree Research)

In accordance with the Coursework Student Academic Complaints Policy, a student may request an explanation of a mark for an assessment task or a final grade for a subject consistent with the student's right to appropriate and useful feedback on their performance in an assessment task. Refer to the Coursework Student Academic Complaints Policy for further information http://www.uow.edu.au/about/policy/UOW058653.html

General Advice

This outline should be considered in conjunction with policy documents available through the University of Wollongong website. Those policies are subject to revision.

Please see the additional documentation provided with this subject outline.
